

Re-Ribboning microphones.

***I have a very nice ribbonmicrophone, but sadly the ribbon is broken.
Is there a possibility for repairing it, cause the manufacturer doesn't do it
anymore?***

Check at Larry Kilips for more info on reribboning yourself.

**Larry Kilips on re-Ribboning Microphones:
<http://www.lkmusic.co.nz/ribbonfix.htm>**

**Check the technicians page at technical.raysaudio.com. Here you will find Enak
Mic repairs for reribboning.**

**If you have a beyer microphone which needs reribboning you can check at beyer
dynamic headquarters.**
